Professional Summary

Frontend Developer with 4+ years of experience in React.js and modern UI frameworks, now actively transitioning into full stack development by learning Node.js and backend APIs. Focused on building complete, scalable, and user-centric web applications.

Work Experience

Brandigo
Jun 2023 - Apr 2025

Lead Frontend

Developed and maintained scalable applications using Next.js and Reactjs, focusing on reusable components, optimized performance (code splitting, lazy loading, image optimization), and maintainable monolithic architecture. Managed complex application state with Redux and Redux Toolkit, ensuring consistent and reliable data flow across the app. Collaborated cross-functionally with design, backend, and QA teams, provided mentorship to junior developers, and also gained 1 year of experience with Angular in the laundry service web applications.

Appiskey
Aug 2021 - May 2023

Senior Frontend Developer

Developed responsive and scalable UI components using React.js and Next.js, with a strong focus on clean, maintainable, and efficient code. Collaborated effectively with cross-functional teams, contributed to code reviews, and helped establish best practices for front-end development. Troubleshot complex issues and played a key role in project planning, including estimating timelines and ensuring the timely delivery of features.

Chhatt.com
Nov 2020 - Jul 2021

Frontend Developer

Contributed to building React.js and Next.js applications under senior guidance, applying best practices in state management, component design, and performance optimization. Actively participated in code reviews and team collaboration, ensuring code quality and timely project delivery. Demonstrated a strong commitment to continuous learning, consistently improving skills in modern front-end development tools and frameworks.

Digital Graphiks
Mar 2020 - Jun 2020

Junior Frontend Developer

Developed responsive and visually appealing web applications using React.js and modern UI libraries, ensuring high performance and cross-browser compatibility. Collaborated closely with designers, backend developers, and project managers to translate business requirements into clean, scalable, and maintainable code. Conducted code reviews, debugged complex issues, and maintained thorough documentation to support long-term project sustainability and team collaboration.

Projects

Order.love2laundry

Order.love2laundry is a laundry order management system that allows users to place laundry orders, track their status, and manage their laundry orders
